Template Matching: Matlab

- Consider the biometric matrix and its template:

0	0	1	4	4	5
0	1	3	4	3	4
1	3	4	2	1	3
4	4	3	1	0	0
5	4	2	1	0	0
5	5	4	3	1	0

1	0	0
1	0	0
3	1	0

- Pad the biometric matrix according to the best possible way.
- Evaluate SAD, SSD, and NCC.
- Download the image from Moodle (week 6): Match the template.
